Construction Details

MATERIALS

Core Materials

1. Particleboard up to 3/4-inch thick:
M3 Industrial Grade average 47-pound density.
2. Particleboard 1-inch thick or thicker:
M3 Industrial Grade average 45-pound density.
3. MDF 1/4-inch thick: Industrial Grade average 45-pound density.

Decorative Laminates

1. High-pressure decorative laminate Type GP28 vertical grade on drawer/doors fronts and specified exposed panels.
2. High-pressure decorative laminate Type GP48 horizontal grade on countertops.
3. Thermally fused melamine laminate on cabinet cases, drawer components and shelves.

Edging

1. 1.4mm PVC banding with eased radius on drawer/door fronts and countertops.
2. 0.5mm PVC banding on all other components.

CABINET HARDWARE

Hinges

1. Concealed 120-degree swing, six-way adjustable clip-on. Nickel-plated metal. Two hinges per door up to 40 inches, three hinges per door on tall cabinets. (*standard*)
2. Concealed 170-degree swing, six-way adjustable clip-on. Nickel-plated metal. Two hinges per door up to 40 inches, three hinges per door on tall cabinets. (*optional*)

Pulls

1. Steel, nickel-plated or powder coated in a variety of styles.

Slides

1. Zinc plated steel with steel roller ball bearings, side mounted, full extension on all drawers. Pencil drawers, box drawers and deep drawers are rated at 100-pound with full extension and designated file drawers are rated at 150-pound.

Drawer Systems

1. All designated file drawers have an integrated, metal hanging file system to allow for front-to-back or side-to-side filing.

Locks

1. Lock systems allow for all single or ganged locked drawers or individual single/double doors.

FABRICATION

1. Base cabinets are constructed of 3/4-inch thick M3 industrial grade particleboard. Wall cabinets are constructed with 3/4-inch thick M3 industrial grade particleboard sides and 1-inch thick M3 industrial grade particleboard top and bottom. Tops and bottoms are glued and doweled to cabinet sides and fixed internal dividers.
2. Cabinet fronts are 3/4-inch thick with vertical grade GP28 laminate on both sides.
3. Finished end panels are either vertical grade GP28 laminate or thermally fused melamine to match cabinet color, whichever is specified.
4. All exterior and interior surfaces are finished in thermally fused laminate and all internal parts are finished to match cabinet color.
5. Cabinet shelves are 1-inch thick thermally fused laminate and sealed completely with all sides edged.
6. Cabinet backs 1/4-inch thick laminated with thermally fused melamine to match cabinet finish, trapped in a 1/4-inch wide groove and stapled in place.
7. Drawer boxes are 5/8-inch thick laminate, 4-sided and finished in maple.
8. Base cabinets are edged on all sides including back edge. Base cabinets, except sink base, have a full sub top. Sink base units have an open top with steel supports in front and back concealed behind front panel.
9. Cabinet base may be ordered as finished or unfinished and attached. Cabinets can be ordered with no base in applications where a ladder base is appropriate.

WARRANTY

1. All Techline architectural cabinets and countertops come with a limited 5-year warranty to the original owner against defective material and workmanship.
